Severn Beach Preschool is a place of possibilities.

Our pedagogy recognises that children learn in many different ways and that variety is the spice, continuity is the key and consolidation is the glue!!

There are opportunities for supported play

We learn through play

We learn indoors and outdoors

Every child is supported to learn

Effective Learning

The children are given the space and freedom to invent their own play

As the children grow in ability we have short direct teaching and guided learning sessions

We have group activities guided by adults

Children learn from observing each other

Adults model play
