

Our Intent...In more detail

We have high expectations, hopes and dreams for all children at Severn Beach Preschool. We aim to give all children in our care a firm foundation in the skills and knowledge they need for their future, including resilience, perseverance, independence, tolerance and kindness.

Our curriculum spans the school year and is comprehensive but flexible. We know what we need to cover but the 'how' and the 'to who when' is not fixed, we are early years - we are individuals...

As children join us we assess their starting points and get to know them better so we can plan for their individual needs. We notice who needs extra support and who needs extra challenges, ensuring we support all children at an individual level. Each child's cultural capital is considered as we plan their way forward to ensure they are all able to fully benefit from all that is on offer.

Our continuous provision and our planned and enhanced provision are carefully thought out with the children at the heart of all that we do. We use Development Matters 2021 as our assessment tools to ensure we are recognising that all children are making progress.

Through our carefully considered, fun and playful curriculum and with the encouragement and teaching of interested and experienced adults who inspire curiosity, awe and wonder and a have-a-go ethos, we hope that the children who leave us to progress to the next level of their educational journey will have the confidence to challenge themselves and to embrace life and the opportunities that lie ahead...
