

Litter picking

Becoming involved in our communities and being proud of where we live

On days when the weather is right and the staffing is right and the children are 'ready' ...off we go...

- The children go out in small groups to tidy up Severn Beach!
- They learn to be safe!
- They learn that it is not good to throw your rubbish on the floor.
- They learn about being responsible
- They learn that rubbish is harmful to our wildlife
- They develop a feeling of pride
- They develop a feeling of helpfulness and community spirit
- They follow the rules and listen to the grown ups

And what's more - They love it!!

The rules are :

Don't touch the rubbish with your hands!! .

Do use the grabbers.

Keep safe at all times and stay close to the grown ups.

Stay on the path or on the grass.

Dog poo is not rubbish and does not need collecting!!

Take turns and help each other

Risk assessments are carried out before and during this activity. We have all the appropriate equipment.
